## **MESSAGE**

Every year, 1st of July is commemorated as a Doctors' Day to pay respect to the services rendered by the medical fraternity. This day also happens to be the Birth Anniversary of Dr. B. C. Roy, former Chief Minister of our State.

We also know that presently the world is passing through an emergency situation which has arisen due to COVID. Almost all the doctors, nurses, paramedical staff and other frontline workers are working day and night forsaking their family life to combat this disease, so that people can be saved from such a treacherous disease.

So, on this day we congratulate all the doctors who are not only working but fighting day & night to combat COVID. We are proud of them and for their efforts, that they are putting into saving the mankind.
