

**NOTIFICATION**

**Sub: Provisional results of PhD Admission Interview 2022 held on 05.07.2022, & 07.07.2022 subject to approval of Academic Council.**

Sl. No.	Name of the Candidate	Name of the faculty	Suggestion of the Experts of respective Interview Board	Proposed Action
1.	KAJARI BANDYOPAD HYAY	Faculty : Medicine, Subject : Community Medicine Institute: College of Medicine and Sagar Dutta Hospital, Kolkata	<p>But still now some modifications are suggested:</p> <p>a. Suggested modification of objective- 1: - To estimate the proportion of infants aged less than six months having underweight in a rural community of Rampurhat Health District of West Bengal.</p> <p>b. One of the research questions of the study is – “What is the proportion of underweight among infants aged less than six months”? And - expected outcome of the study is- “Reduction of growth faltering among infants aged less than 6 months” (in the intervention block). So, Objective No. 1 of the study should be suitably modified to include - estimation of baseline and end-intervention proportion of infants (&lt; six months) having underweight in both the blocks. Methodology / work-plan/ timelines should be duly modified.</p> <p>c. Sample size was calculated based on 10% reduction of malnutrition among under 6 months children in 1 year. Examiners thought that 10% reduction might not be feasible in such short period and suggested detailed justification/ appropriate reference/ suitable modification for that. Expert comments advised need to justify 10% reduction of Malnutrition as a yard stick.</p> <p>d. Proposed that - the eligible pregnant women will be recruited during their EDD <math>\pm</math> 7 days. But, examiners suggested that newborns should be recruited within +/- 7 days of delivery.</p> <p>e. Validated tools are available to assess maternal mental health status -- examiners suggested using them with suitable modifications.</p> <p>f. The proposed two days training of ANMs is better to be arranged in Rampurhat MC considering the cost, but it can be organized in COM &amp; Sagar Datta hospital if funding is ensured</p> <p>g. Regarding funding support for different activities including involvement of ASHAs - the investigator has informed that- The State Resource Centre on Nutrition (SRCN) will be approached to support the training activities. The visits/ contacts made by the ASHAs will be those mentioned in different programs (HBNC, HBYC, MAA program) which are already incentivized (page -18/ lines-6-10 of revised proposal).</p> <p>h. Reduction of under-nutrition among children is a national priority and there is paucity of such type of intervention cum implementation research studies in this field, so the proposal may be accepted after the suggested modifications.</p> <p>i. AWW should be included as stakeholders.</p> <p>j. As Postnatal/Pediatric wards are not be available in CHC?RH, it is to be done in District Hospital/Medical College</p> <p>k. Sampling method, plan for analysis needs more elucidation.</p>	Resubmission of Research Proposal after detailed modification as instructed by experts during the Interview, within a period of 07(Seven) Days (from the date of notification) for further review by the Interview Board.

	DEBJANI SEN GUPTA	Faculty : Medicine Subject : Community Medicine Institute: CNMC, Kolkata	<ol style="list-style-type: none"> <li>1. Research question is not found.</li> <li>2. Meaning of 360° assessment is not clear.</li> <li>3. Sampling should be more clear.</li> <li>4. Multiple centres in different districts make study difficult in terms of logistics and heterogeneity.</li> <li>5. Need to follow up some of the clinic dropouts for data</li> <li>6. Match between what scale score say and reality of patient's ability to quit opioids needs to be explored Need to include some standardized questionnaires to study mental health issues</li> <li>7. More details about "qualitative" component to study- which software to be used, method of procuring etc.</li> </ol>	Resubmission of Research Proposal after detailed modification as instructed by experts during the Interview, within a period of 07(Seven) Days (from the date of notification) for further review by the Interview Board.
3	MOUSUMI DATTA	Faculty : Medicine, Subject : Community Medicine Institute: Medical College & Hospital, KolKata	Multiple centers including private colleges needs to be included.	Resubmission of Research Proposal after detailed modification as instructed by experts during the Interview, within a period of 07(Seven) Days (from the date of notification) for further review by the Interview Board.
4.	ANANYA GHOSHAL	Faculty : Medicine, Subject : Community Medicine Institute: Burdwan Medical College & Hospital, Burdwan	<ul style="list-style-type: none"> <li>• Modification of Title – suggested if feasible:</li> <li>• Prevalence and correlates of risk Factors of Non-Communicable Diseases and Perceived Risk and Barriers to Care among Tribal Adult Population in Purulia District, West Bengal: A Mixed-Method Study.</li> <li>• Why Asian Indian classification of Obesity is not used?</li> <li>• Normality test to be mentioned in statistical analysis plan.</li> <li>• Complex sample design, sample size issues when using such samples needs better elucidation</li> </ul>	Resubmission of Research Proposal after detailed modification as instructed by experts during the Interview, within a period of 07(Seven) Days (from the date of notification) for further review by the Interview Board.

	SWARNALI CHAKRABORTY	Faculty : Nursing, Subject : Paediatric (Child Health) Nursing, Institute: Burdwan Medical College & Hospital, Burdwan	<ul style="list-style-type: none"> <li>• Gestational age 28-32weeks is chosen-justify.</li> <li>• Need to adopt stratified random sampling (based on age)</li> <li>• Literature support is required for 5 days intervention.</li> <li>• Check for sample availability (hospital data should be submitted regarding number of premature birth).</li> <li>• Five days intervention should continue irrespective of outcome.</li> <li>• Abdominal massage is a standard procedure or not? Support with documents.</li> <li>• Ethical clearance from SSKM,Kolkata and BMC, Burdwan needs to be obtained.</li> <li>• The neurological assessment to be done by the researcher with proper tool along with developments outcome.</li> <li>• Check the all over feasibility of the study. Guide from SSKM also needs to be included.</li> </ul>	Resubmission of Research Proposal after detailed modification as instructed by experts during the Interview, within a period of 07(Seven) Days (from the date of notification) for further review by the Interview Board.
6.	SAHELI SENAPATI	Faculty : Nursing, Subject : Psychiatric (Mental Health) Nursing, Institute: Midnapur Medical College & Hospital, Midnapur	<ul style="list-style-type: none"> <li>• Change of previous title is recommended.</li> <li>•</li> <li>• Newly presented problem statement need to be modified as follows: 1.Effect of a comprehensive module 2. To be evaluated among ANM nurses at sub centre level.</li> <li>• Need to mention research gaps /lacunae.</li> <li>• Check the all over feasibility of the study.</li> </ul>	Resubmission of Research Proposal after detailed modification as instructed by experts during the Interview, within a period of 07(Seven) Days (from the date of notification) for further review by the Interview Board.
7.	RITUPARNA JASH	Faculty : Allied and Paramedical Health Sciences Education, Subject :Psychiatry, Institute:IPG ME&R, Kolkata	<ul style="list-style-type: none"> <li>• Control needs to be better defined.</li> <li>• The scale needs to be defined based on which decision will be taken to refer a patient for therapy.</li> <li>• Again scale to assess improvement / outcome of intervention needs to define.</li> <li>• Sample size calculation to be shown.</li> </ul>	Resubmission of Research Proposal after detailed modification as instructed by experts during the Interview, within a period of 07(Seven) Days (from the date of notification) for further review by the Interview Board.

	INDRASHIS PODDER	Faculty : Medicine , Subject : Dermatology Institute: College of Medicine and Sagar Dutta Hospital, Kolkata	Minor corrections like as : 1. Title of the topic. 2. Sample size and type of statistical methods to be adopted needs clarification. 3. Statistical method for comparison between study populations to be reviewed. 4. Use proper formula for sample size calculation in Case control study.	Resubmission of Research Proposal after detailed modification as instructed by experts during the Interview, within a period of 07(Seven) Days (from the date of notification) for further review by the Interview Board.
9.	MASUMA YASMIN	Faculty : Allied and Paramedical Health Sciences Education, Subject : Public Health Institute: IPGME&R, Kolkata	<ul style="list-style-type: none"> <li>Has made appropriate modification- May be approved</li> </ul>	Provisionally approved. Subject to the approval of Academic Council.
10.	BAIDURJYA BHATTACHA RJEE	Faculty : Homoeopathy Subject : Practice of medicine Institute: Calcutta Homoeopathy Medical College & Hospital, Kolkata	<ul style="list-style-type: none"> <li>Research work should be carried in affiliated institute only</li> <li>Why Add- on in this Disease condition?</li> <li>Appointment/ consent letter of the Physician of conventional Medicine( Modern Medicine) ? &amp; ;</li> <li>Justification for permission from concerned authorities regarding the study related field to the Modern Medicine.</li> <li>Remuneration of the Physician of Modern Medicine?</li> <li>Too many variables regarding number of medicines and potency (Power) of the medicines.</li> <li>Aim of the research is unclear.</li> <li>Drug control trial cannot be a study material .</li> <li>Need further modification or revision.</li> <li>Feasibility of conducting RCT.</li> <li>Research question is not found.</li> <li>sample size calculation is not clear.</li> <li>Individualized treatment will involve administration of different drugs in different patients. So how the trial will be conducted.</li> <li>Study methodology needs to clarify-individualized Homeopathic system does not seem to match with case control study.</li> <li>Individualized Medicine' – act addressed adequately study protocol involves Heterogeneous treatment methods, which may reduce power of the study.</li> </ul>	Resubmission of Research Proposal after detailed modification as instructed by experts during the Interview, within a period of 07(Seven) Days (from the date of notification) for further review by the Interview Board.
